CAMELLIA JAPONICAS

THE ARISTOCRAT OF THE SOUTHERN GARDENS

We specialize in growing Camellias, and after many years' experience we pride ourselves on the vigorous, healthy plants we have to offer this season, and the nice collection of choice varieties.

As Camellia names have not been standardized, we are giving the best description that we can of the different varieties.

OUR CLASS A-1 CAMELLIAS

These are the usual best standard varieties. If sizes are not mentioned, can furnish any size listed in our prices of Class A-1.

BOLEN No. 4

Deep pink, medium size blooms, some larger than Pink Perfection, blooms mid-season to late.

BOLEN'S No. 4

CHANDLERII ELEGANS

One of the finest and largest of the peony-type Camellias. Cherry-red, variegated with white and rose.

CHEERFUL

Double deep pink, medium to large, blooms early mid-season. Good grower and good bloomer.

DUCHESS DE CASSI

Very double peony-type, white variegated with orchid and pink, very attractive and unusual variety.

DUCHESS de ROHAN

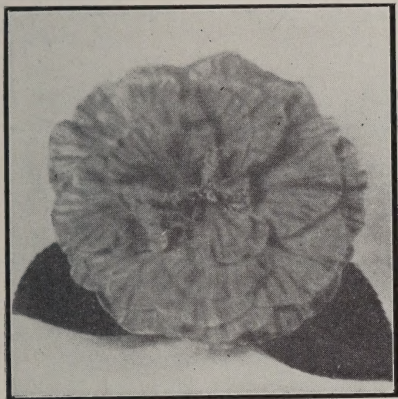

Fluffy, peony-type pink, same shade of pink as the Mrs. Chas. Bell Rose. Blooms mid-season until late.

ELLEN McKINSEY

Flowers double, fluffy, peony-type, pink striped and spotted with white, has a few stamens intermixed with petals. Begins blooming very early and continues throughout the season.

GLOIRE de NANTES (Leana Superba)

Very large, semi-double cerise, has long yellow stamens, center petals often twisted. Beautiful dark green foliage, that makes the plant unusually attractive as an evergreen. The blooms stand out above the foliage in a way that we have not seen in other varieties.

**MADAM
STREKALOFF**

GUNNELLI (Monarch)

Very large, heavy peony-type deep pink, sometimes has some white spots. Has good foliage, dwarf spreading grower, as this variety is more compact and does not grow tall as fast as other varieties. The price of specimen plants will be one grade higher than other varieties. For example the price of 18-24 inches will be at listed price of 24-30 inches. This is one of the best.

HERME

Large, loose peony-type variegated white and pink. A beautiful flower, but the plant does not grow as compact in the nursery as many other varieties. Sizes 3-4 feet and 4-5 feet.

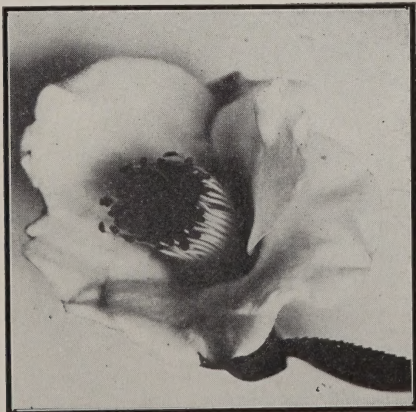

IMPERATOR

Brilliant, Christmas-red, peony-type blossoms, which are more graceful than some of the other peony-types, makes this a most beautiful variety.

JEANERETTE PINK

Large semi-double to peony-type solid pink. Sizes up to 36 inches.

**MISS DORA
McCARTER**

MAIDEN'S BLUSH

Flesh pink with small veins of deeper pink. Very double recurved petals. Medium size flower, dark green foliage. Sizes up to 24 inches.

No. 101

MADAM STREKALOFF (Belle Romana)

Beautiful large double soft rose, with very small stripes of crimson. Has about 60 outer petals and 24 to 30 smaller petals in center.

MISS DORA McCARTER

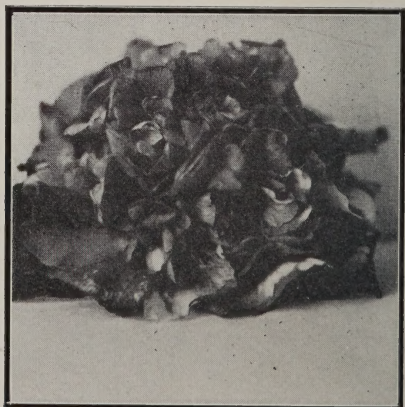

Large single white flowers with yellow stamens. This is the best single white Camellia we have seen. We named this variety in honor of the one in whose garden it originated. Sizes up to 36 inches.

No. 101 (Tri-Color S. Folki)

Large, semi-double deep cherry-red, mottled and marbled with white, has prominent stamens in a central compact ring. The type of bloom is similar to Donklaeri, but not quite so large, and the foliage is different. Good grower and profuse bloomer.

OTOME

Double shell pink, larger than Pink Perfection and shows veins of slightly deeper pink. Sizes 6-8 inches up to 24 inches.

PROFESSOR
C. S. SARGENT

PINK PERFECTION

Very double, medium size flowers of delicate shell pink. One of the first to begin blooming during the Camellia season.

PROFESSOR C. S. SARGENT

Beautiful, very double, peony-formed flowers, rich deep crimson; begins blooming early in the season, has about 20 outer petals and a tuft of 240 or more smaller petals in center.

BOLEN'S LATE TRI-COLOR

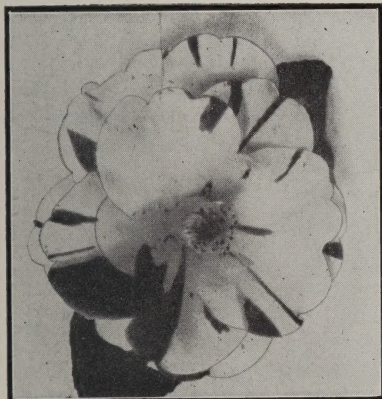

Semi-double flowers, usually pure white with red or pink stripes or spots, with occasionally a solid red or white bloom on same bush, blooms late.

WHITE TRI-COLOR

Sport of Tri-Color. Pure white flowers. Sizes 18 to 36 inches.

VARIABILIS

Semi-double to peony-form, pink and white variegated. Has some solid pink blooms. Good grower and good bloomer.

BOLEN'S LATE
TRI-COLOR

CLASS A CAMELLIAS

These are good standard varieties. Some are as good as Class A-1, but are more plentiful and can be sold cheaper.

MRS. ABBEY WILDER

Peony-type white flowers with occasional stripes or spots of pink. Sizes up to 24-30 inches.

DUCHESS de ORLEANS

Very double white, good grower, free bloomer from early January into March. Sizes 6-8 up to 24-30 inches.

DUKE de ORLEANS

Very large peony-formed flowers, creamy-white, flaked and dotted with rose, one of the earliest to begin blooming and continues to bloom throughout the season. Has Azalea-like odor. Sizes 6-8 up to 24-30 inches.

JARVIS RED

Semi-double, dark red with yellow stamens, intermixed with petals; narrow, dark green foliage. Sizes up to 36 inches.

NOBILISSIMA

Full double peony-type, petals intermixed with yellow stamens, begins blooming early in the season.

T. K. VARIEGATED

Semi-double, light pink, with darker pink stripes; cluster of stamens in center.
